### ITEM # 51, CGA-510 POL ACETYLENE CYLINDER TO CGA-300 COML ACET 1 PIECE REGULATOR ADAPTER

Adapters connect a regulator to a cylinder or other equipment when different CGA threads on the mating parts make a direct connection impossible.

Adapters must be selected with care to ensure that regulators and other equipment are used only with compatible gases and pressure ratings.

A mixture of non-compatible gases in any system is a possible hazard. Regulators and all other parts of an adapted system must be thoroughly purged of all contaminants, especially organic material and residual gases.

#### Specifications

|                       |                                      |
|-----------------------|--------------------------------------|
| Field                 | Industrial                           |
| Material              | Brass                                |
| From Cylinder Service | CGA-510 POL Acetylene                |
| To Regulator Service  | CGA-300 Commercial Acetylene 1 Piece |
| Cylinder Nut          | 15-2                                 |
| Cylinder Nipple       | 15-8                                 |
| Regulator Adapter     | 15-1                                 |

#### Additional Information

**Additional Information**

Adapters should not be used as permanent installations. For long-term use, the appropriate CGA regulator should be used on all cylinders and gas systems.
