

# Nedo® Product Information

## Nedo mEsstronic

Nedo **mEsstronic** is an easy to use electronic measuring tool to measure inside dimensions such as window and door openings. Simply place the **mEsstronic** in position, pull out the telescopic sections and read off the measurement from the digital display. Up to 10 measured values can be stored in the built in internal memory. Additional 511 values can be memorized on the optional Nedo Memory Module.

The optional Bluetooth module *BlueConnect 2* allows to transfer measured data wireless to a laptop computer by Bluetooth.

Digital display  
(measured length)

ON-switch

OFF-switch

Conversion from metric to imperial measuring system.

Zero reset button for measured value. Permits reference measurements to be made.

Memory scrolling (up/down) buttons. Each value stored in the memory can be displayed.

Memory button to store a measured value on the memory module or to transfer the measured value to a PC via the Bluetooth module.

Port for memory module, Bluetooth module

### Features:

- Measuring ranges: 118" and 197"  
3 m and 5 m
- Power supply: 4 x 1.5 V batteries type (AA) or 4 x 1.2 V rechargeable batteries
- Operation duration: approx. 200 hours (continuous use)
- Automatic switch-off after 3 minutes of non-use
- Zero function: sets reference points for relative measurements
- Internal memory for 10 values
- Port for memory module, Bluetooth module and RS-232 module

### Nedo mEsstronic

| Ref.-No. | Measuring range                | Graduations | Resolution | Weight            |
|----------|--------------------------------|-------------|------------|-------------------|
| 583 111  | 0.70 m to 3.00 m / 28" to 118" | mm/inch     | 1 mm       | 3 lbs. / 1.4 kg   |
| 585 111  | 1.04 m to 5.00 m / 41" to 197" | mm/inch     | 1 mm       | 4.6 lbs. / 2.1 kg |

Errors and omissions excepted

Precise surveying and measuring
