Recommended Hand Crimp Tool	C-3B

Prop 65

Warning

This product can expose you to lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm.

Note

Note

Since there is no industry standard for hose wall thickness, the ID of the hose cannot be used to determine the correct ferrule.

To determine the proper size ferrule, measure the OD of the hose (as a decimal) and go up to the next larger size Ferrule ID listed above.

Example: If the hose OD is .555 "use a #7325 Ferrule, which has an ID of .562".
