

KOAMTAC

Charging Cradles for Galaxy XCover6 Pro

A Fast and Easy Way to Charge Your Galaxy XCover6 Pro

KOAMTAC Charging Cradles for the Samsung Galaxy XCover6 Pro are the easiest and most secure way to keep your devices charged. The cradles can be assembled in many configurations depending on your unique needs, such as additional charging slots for spare XCover batteries or more phones.

Convenient

XCover6 Pro Charging Cradles support Adaptive Fast Charging (AFC) and ability to charge via USB Type-C or DC connector. Cradles can be configured in many ways—with options including slots for spare XCover batteries or more XCover6 Pro smartphones. All Cradles charge devices/batteries simultaneously regardless of configuration.

Secure

Whether charging XCover6 Pro phones or spare batteries, your devices securely fit into the cradle to ensure a stable charging environment—avoiding accidental damage while charging. Additionally, all charging is accomplished via pogo pins, which means less wear-and-tear on device ports.

Upgradable

If your business upgrades to SKX6Pro SmartSled scanners for data collection, your XCover6 Charging Cradles can be upgraded to support the sled solution.

Cradles compatible with the Samsung Case are also available, allowing users to charge their device while equipped with a Samsung Case with or without the Samsung Case Belt Clip or Extended Battery!

Charging Cradle Details
