# Charging Cradles for XCover6 Pro Samsung Case

## Charging Options for the Galaxy XCover6 Pro with Samsung Case

Using a Samsung Case? KOAMTAC designed charging solutions specifically for the XCover6 Pro Samsung Case. The cradles can be assembled in many configurations depending on your unique needs, such as additional charging slots for Extended Batteries or more device slots.

### Convenient

XCover6 Pro Charging Cradles support Adaptive Fast Charging (AFC) and ability to charge via USB Type-C or DC connector. Cradles can be configured in a multitude of ways. Options include slots for spare Extended Batteries or additional XCover6 Pro phones (with or without Samsung Case Belt Clip). All Cradles charge devices/batteries simultaneously regardless of configuration.

### Secure

All devices fit securely into the cradle ensuring a stable charging environment—avoiding accidental damage while charging. Additionally, all charging is accomplished via pogo pins, which means less wear-and-tear on device ports.

### Upgradable

If your business upgrades to SKX6Pro SmartSled scanners for data collection, your XCover6 Charging Cradles can be upgraded to support the sled solution.

Cradles compatible with the Samsung Case are also available in models for XCover6 Pro (without Samsung Case) and spare XCover batteries.

### Charging Cradle Details

#### LED Indicator

**Green:** Fully charged

**Orange:** Charging

**Blinking Orange:** Power is supplied to the cradle

**Blinking Red:** Charging issues
