Charging Cradles for SKX6Pro™ SmartSled®

Convenient and Secure Charging for the SKX6Pro SmartSled

SKX6Pro Charging Cradles are the easiest way to keep your XCover6 Pro with SKX6Pro SmartSled charged. Our scalable charging solutions are available in many configurations including additional charging slots for spare 2,000mAh Extended Batteries or more SmartSled scanners.

Convenient

SKX6Pro Charging Cradles support Adaptive Fast Charging (AFC) and can charge via USB Type-C or DC connector, allowing for greater flexibility. Options include slots for 2,000mAh Extended Batteries or more SKX6Pro devices. All Cradles charge devices/batteries simultaneously regardless of configuration.

Secure

The SKX6Pro fits securely into the cradle and includes spacers that allow the SmartSled to be charged with or without removing the protective boot. Additionally, devices charge via pogo pins, resulting in less wear-and-tear on device ports. Just place the device into the cradle to begin charging!

Charging Cradle Details

LED Indicator

Green: Fully charged

Orange: Charging

Blinking Orange: Power is supplied to the cradle

Blinking Red: Charging issues

Dimensions

1/2-slot: 3.9" x 4.7" x 2.5" (100 mm x 120 mm x 64 mm)

5/10-slot: 19.7" x 4.7" x 2.5" (500 mm x 120 mm x 64 mm)

Weight

1/2-slot: 7.9 oz (223 g)

5/10-slot: 42.3 oz (1198 g)

Charging Interfaces

Charge via USB Type-C: 5V/2A, Normal Charging

9V/1.67A, Fast Charging, must use Samsung 25W PD charger

Charge via DC Connector: 12V/2A, Adaptive Fast Charging
