DAHUA TECHNOLOGY

8MP AcuPick Starlight+ Network Eyeball Camera

ePoE, True Wide Dynamic Range, and Analytics+

WizMind ePoE

ACUPICK
JUST ONE PICK

WizMind Series devices offer Dahua Analytics+ functions for comprehensive, human-oriented analytic solutions. WizMind Series products are ideal for complex applications with demanding requirements that need advanced analytic capabilities.

System Overview

The Dahua AcuPick Starlight+ 8MP Network Eyeball Camera offers Analytics+ functions at the edge–performing complex real-time AcuPick, Face Detection, People Counting, and Perimeter Protection. Dahua's Analytics+ algorithms significantly improve accuracy and reliability compared to standard intelligent features. The camera is ideal for a host of diverse applications with Starlight+, Ultra Wide Dynamic Range, and Smart IR technologies and an IP67 rating to allow the camera to operate in the most difficult lighting conditions and environments.

Functions

AcuPick
Dahua effectively utilizes both front-end and back-end intelligence to realize Acu-Pick. AcuPick technology is a true video search engine that can quickly locate the information you need. Use it to find a lost individual, locate a specific vehicle, or pinpoint evidence of a suspect who's damaged another's property.

AI-powered Image
With AI ISP technology, the camera is able to easily adapt to scenes, producing high quality images that reveal the fine details of targets.

AI Smart Scene Adaptive (SSA) Technology
Smart Scene Adaptive (SSA) is an intelligent image technology, developed by Dahua that automatically evaluates and compensates for changes in the luminance of a scene. SSA automatically regulates the exposure parameters to improve image quality in a backlit scene, especially in scenes with traffic lights or headlights.

Face Detection
Face Detection technology captures a human face in a digital image and then selects the best image and outputs a snapshot of the face.

People Counting
The camera uses complex real-time people counting algorithms to deliver accurate flow statistics from two distinct people counting functions, Line Crossing and Regional. The line crossing function counts the number of people crossing a defined line, and the regional function counts the number of people in a distinct, user-defined area. People counting is ideal for measuring the number of customers entering or exiting a location and to monitor groups of people in a distinct location.

- 1/1.8-in. 8MP Progressive-scan CMOS Sensor
- Quadruple-stream Encoding
- AI Coding, Smart H.265+, and Smart H.264+ Video Compressions
- AI Smart Scene Adaptive (SSA) Technology
- 8MP (3840 x 2160) at 30 fps, 2.8 mm Fixed Lens
- E-PTZ Technology
- Enhanced Power and Data Transmission Distances (ePoE)
- Starlight+ Technology for Low-light Applications
- Analytics+ Functions — AcuPick, Face Detection, People Counting, Perimeter Protection, and Smart Motion Detection+
- True Wide Dynamic Range (120 dB) and True Day/Night IR Cut Filter
- Maximum IR LED Distance 50 m (164.04 ft)
- Built-in Microphone
- ArcticPro Series Camera — Operational down to –40° C (–40° F)
- IP67 Ingress Protection
- Five-year Warranty*

Smart Motion Detection+
Smart Motion Detection+, a component of Dahua's Analytics+ technology, improves alarm accuracy and decreases the number of false alarms. The advanced SMD+ algorithm analyzes a scene for human or vehicle motion, while filtering out other motion due to trees, leaves, animals, weather, and triggers an alarm when detected.

Perimeter Protection
Dahua Analytics+ includes Tripwire and Intrusion functions that offer custom tripwires based on object type for automation in limited access areas. Perimeter Protection requires less pixels to detect an object to deliver improved accuracy and decreased false alarms due to lights, weather, trees, or animals.

Electronic Pan/Tilt/Zoom (E-PTZ) Functionality
E-PTZ is a virtual technology that scans an area within a 180° or a 360° scene and produces an enlarged view of the area. E-PTZ coupled with 4K resolution lets an operator monitor a large area from a single camera, reducing overall security costs.

Enhanced Power over Ethernet (ePoE) Technology
Dahua's innovative ePoE technology offers a plug-and-play solution to transmit power and data over long distances via Ethernet or coaxial cables, reducing installation time and saving money. ePoE technology encompasses pure IP systems where a single CAT5E cable can carry signals up to 800 m (2624 ft), and IP/Analog hybrid systems where the technology leverages existing analog infrastructure to transmit signals up to 1000 m (3281 ft) over RG59 coaxial cable. This seamless technology offers an effective solution for transmitting over long distances and for upgrading legacy analog system to the latest HD technology.

ArcticPro
The Dahua ArcticPro Series of extreme-environment cameras combine temperature-tolerant components with a waterproof enclosure to ensure flawless operation in temperatures as low as –40° C (–40° F) without the need for an internal heater. The lack of a heater reduces the camera's power consumption and saves operating costs. For applications that demand high-resolution video with advanced features in extremely cold environments, the Dahua ArcticPro Series offers a camera to satisfy the most demanding requirements.

Cybersecurity
Dahua network cameras are equipped with a series of key cybersecurity technologies including security authentication and authorization, access control, trusted protection, encrypted transmission, and encrypted storage. These technologies improve the camera's ability to prevent malicious access and to protect data.

Environmental
Subjected to rigorous dust and water immersion tests and certified to the IP67 Ingress Protection rating makes it suitable for demanding outdoor applications.

Technical Specification

Camera

Image Sensor	1/1.8-in. 8MP CMOS
Effective Pixels	3840(H) x 2160(V)
RAM/ROM	2 GB/4 GB
Scanning System	Progressive
Electronic Shutter Speed	1/3 s to 1/100,000 s

Minimum Illumination	Color	0.0008 lux at F1.6 (30 IRE)
	B/W	0.0004 lux at F1.6 (30 IRE)
	IR On	0 lux at F1.6

S/N Ratio	> 56 dB
IR Distance	Up to 50 m (164.04 ft)
IR On/Off Control	Auto, Manual
IR LEDs	Two (2)

Lens

Lens Type	Fixed-focal
Mount Type	Board-in
Focal Length	2.8 mm
Maximum Aperature	F1.6

Angle of View	Horizontal	111°
	Vertical	59°
	Diagonal	131°

Focus Control	Fixed
Close Focus Distance	1.80 m (5.91 ft)

DORI[1] Distance	Detect	Observe	Recognize	Identify
	85 m (280 ft)	34 m (112 ft)	17 m (56 ft)	9 m (28 ft)

Installation Angle

Range	Pan	0˚ to 360˚
	Tilt	0˚ to 78˚
	Rotation	0˚ to 360˚

Video

Compression	AI Coding, Smart H.265+, H.265, Smart H.264+, H.264, H.264B, H.264H, MJPEG (Sub Stream only)
Streaming Capability	Four (4) Streams
Resolution	8MP (3840 x 2160), 3072 x 2048, 3072 x 1728, 2592 x 1944, 4MP (2688 x 1520), 3MP (2048 x 1536), 2304 x 1296, 1080p (1920 x 1080),1.3MP (1280 x 960), 720p (1280 x 720), D1 (704 x 480), VGA (640 x 480), CIF (352 x 240)

Frame Rate[2]	Main Stream	8MP (3840 x 2160) at 30 fps
	Sub Stream 1	D1 at 30 fps
	Sub Stream 2	1080p at 30 fps
	Sub Stream 3	720p at 10 fps

Bit Rate Control	CBR/VBR

Bit Rate	H.264	32 Kbps to 8192 Kbps
	H.265	19 Kbps to 13568 Kbps

Day/Night	Auto (ICR), Color, B/W
BLC Mode	BLC, HLC, True WDR (120 dB), SSA
White Balance	Auto, Natural, Street Lamp, Outdoor, Manual, Regional Custom
Gain Control	Auto, Gain Priority, Shutter Priority, Manual
Noise Reduction	3D DNR
Motion Detection	Off, On (4 Zones, Rectangular)
Region of Interest	Off, On (4 Zones)
Advanced Features	Smart IR, Defog
Image Rotation	0°, 90°, 180°, 270° (Supports 90°/270° with 4MP (2688 × 1520) resolution and lower)
Mirror	Off, On
Privacy Masking	Off, On (8 Areas, Rectangular)

Audio

Compression	PCM, G.711A, G.711Mu, G.726, G.723, AAC

Network

Ethernet	RJ-45 (10/100 Base-T)
Protocol	HTTP, HTTPS, TCP, ARP, RTSP, RTP, UDP, SMTP, FTP, DHCP, DNS, DDNS, PPPOE, IPv4/v6, QoS, UPnP, NTP, ICMP, IGMP, 802.1x
Interoperability	ONVIF (Profile, S, G, T), CGI, P2P
Auto Register	Support
Streaming Method	Unicast, Multicast
Maximum User Access	20 Users
Edge Storage	Network Attached Storage (NAS), FTP, SFTP, MicroSD Slot (Maximum 512 GB)
Web Viewer	Edge (Version 9 or Higher), Chrome (Version 102 or Higher), Firefox (Version 88 or Higher)
Mobile Operating System	iOS, Android
Cybersecurity	Video Encryption, Firmware Encryption, Configuration Encryption, Digest, WSSE, Account Lockout, Security Logs, IP/MAC Filtering, Generating and Importing X.509 Certification, Syslog, HTTPS, 802.1x, Trusted Boot, Trusted Execution, Trusted Upgrade

Certifications

Safety	UL62368-1 CAN/CSA C22.2 No.62368-1-14
Electromagnetic Capability (EMC)	FCC CFR 47 Part 15 Subpart B Electromagnetic Compatibility Directive 2014/30/EU

Interface

Audio	Input	One (1) Channel, Built-in Mic
	Output	One (1) Channel
Alarm	Input	One (1) Channel (5 mA,3 to 5 VDC)
	Output	One (1) Channel (300 mA, 12 VDC)

Electrical

Power Supply	12 VDC, PoE (802.3af), ePoE

Power Consumption	12 VDC	Standard: 4.1 W Maximum: 6.8 W (H.265 + WDR+ Intelligence + IR)
	PoE	Standard: 5.2 W Max: 8.8 W (H.265 + WDR+ Intelligence + IR)

Environmental

Operating Conditions	−40° C to +60° C (−40° F to +140° F) Less than 95% RH
Storage Conditions	−40° C to +60° C (−40° F to +140° F)
Ingress Protection	IP67

Construction

Casing	Metal + Plastic
Dimensions	121.9 mm x 99.1 mm (4.80 in. x 3.90 in.)
Net Weight	0.50 kg (1.10 lb)
Gross Weight	0.77 kg (1.70 lb)

Analytics+ Functions

Smart Plan Schedule	Enable Analytics+ functions depending on a user-defined schedule. Allows the camera to switch analytic functions based on time.
Perimeter Protection	• Detects human or vehicle violations using the following methods: **Tripwire**: a target crosses a defined line. **Intrusion**: a target enters or exits a defined perimeter. • Monitors a combination of detection methods. • Search and retrieve video based on target type.
Face Detection	• Detects and captures a snapshot of a human face within a scene.
AI SSA	• Automatically evaluates and compensates for changes in the luminance of a scene. • Regulates the exposure parameters to improve image quality in a backlit scene, especially in scenes with traffic lights or headlights.

Queue Management	• Monitors four (4) user-defined regions where people wait in line (or queue). Issues an alarm for the following triggers: **People in Line**: the number of people in line exceeds a minimum threshold. **Wait Time**: time a person waits in line is greater than the minimum queue time
AcuPick	• **Directly locate the target**: Directly locate the video clips of the target without pre-configuration. • **Smart search by intrusion**: AcuPick allows searching for humans/vehicles that have entered the rule area while performing a historical video search of the target. • **One Pick**: Users can search in preview or playback with just one pick. 1 Click to freeze the video and frame the target. • **Smart secondary search**: AcuPick can perform a second accurate search based on the search results. • IPC/NVR extracts and models the target's appearance details through an algorithm, mainly focusing on the appearance characteristics of the human body, such as clothing color, clothing style, gender, body shape, and other relevant information.
People Counting	• Delivers accurate flow statistics from the following methods: **Line Crossing**: Counts a person as they cross a threshold in a defined direction. **Region**: Counts the number of people in a defined area. • Counts people simultaneously from four (4) threshold lines and four (4) defined regions[3].
Smart Motion Detection+[3]	• Differentiates between and classifies human and vehicle objects. • Filters false alarms due to leaves, lights, animals, and other inconsequential objects. • Extracts human or vehicle objects from recorded video for quick target search and retrieval.
Recommended Detection Distance	Human — Up to 10.0 m (32.81 ft) Vehicle — Up to 15.0 m (49.21 ft)

Intelligent Video System Functions

IVS triggers an alarm and takes a defined action for the following events:

Standard Features	• Tampering with the camera. • Error writing to an onboard Micro SD card. • Error sending or receiving data over the network. • Unauthorized access to the camera. • IP Address Conflict
Premium Features	
Missing Object	An object is missing from a designated area.
Abandoned Object	An object is placed in a designated area where no object should be.
Scene Change	A person or object moves the camera to change the scene or covers the camera to obscure the scene.
Fast Moving	Target exceeds a set speed when exiting a defined area
Parking Detection	Vehicle remains in a defined area without motion for a set period of time.
Crowd Gathering	Specified number of people remain inside a defined area for a set time.
Loitering Detection	Target is in motion inside a defined area longer than a specified amount of time.
Advanced Features	
Heat Map	Generates a visual representation of data.

ePoE Transmission Distances

Via CAT5E/CAT6 Ethernet Cable
ePoE supply voltage 48 V
Maximum DC resistance < 10 Ω/100 m

Cable Length	Bandwidth	PoE Load Capacity	Hi-PoE Load Capacity	Working Mode
100 m (328 ft)	100 Mbps	25.5 W	53 W	IEEE/E100

1000 m (3281 ft)	10 Mbps	8 W	8 W	E10

1. The DORI distance is a measure of the general proximity for a specific classification to help pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specifications and lab test results according to EN 62676-4 , the standard that defines the criteria for the Detect, Observe, Recognize and Identify classifications.
2. Pair a Smart Motion Detection camera with a Dahua recording device that also offers SMD functionality to take advantage of SMD alarm filtering and object classification when searching and playing back recorded video.

Ordering Information

Type	Part Number	Description
