- Hook & Loop Closure
- Pockets: 1 Outer Lower Right
- Sizing: S-5X

LUX-SSGCFR

MODACRYLIC FR

Modacrylic, while being man-made, is inherently flame resistant. It doesn't melt or drip and will self-extinguish when the flame is removed. In addition, it is comfortable, resistant to abrasion and pilling, and holds its shape versus other fabrics.

Made of 100% ANSI 107 Modacrylic Aramid Blend. All of our vests are ANSI Class 2 compliant and tested to ASTM F1506 - Arc Rated. Our vests use durable 2" 3M™ Scotchlite™ Reflective Material - Silver Industrial Wash Flame Resistant Fabric. Additional features include FR Thread and Flame Resistant binding. All vests withstand 50 Home / 30 Industrial washes.
