Specifications:

MODEL 40300-40302

ESCO U-Joint Pullers are manufactured to withstand rigorous use in day-to-day service applications. Cast out of high-quality heavy-duty steel, U-Joint Pullers are built with quality and precision to last and deliver the best user experience possible. Specifically designed to eliminate the use of dangerous vice-and-socket or hammering methods, ESCO U-Joint Pullers aid in reducing the risk of damaging joints, bearing caps, yokes, and driveshafts. Engineered to be a solution in the shop and provide universal application use to get the job done. ESCO U-Joint Pullers are to be used with up to a 1 in. impact tool.

BENEFITS & FEATURES:

- ▶ Manufactured from heavy-duty steel materials
- ▶ Eliminates using vice-and-socket or hammering methods which can be dangerous or cause damage
- ▶ Aid in reducing the risk of damaging joints, bearing caps, yokes, and driveshafts
- ▶ Engineered to be used with 1 in. impact wrench (Model 40300) & 1/2 in. impact wrench or air/manual ratchet (Model(s) 40301 & 40302)

designed for use on multiple size and style Universal Joints ranging from Automotive up to most Commercial Trucks.
