

DV-PC2HD

Analog PC to HDMI Converter

FSR

Video Products Group

DV-PC2HD

Connect with Confidence

The DV-PC2HD converts a variety of VGA signals and stereo audio to HDMI. It can be very useful in applications with sources that do not provide an HDMI output such as older PC's and laptops. The signal resolution at the HDMI output is dependent on the VGA input resolution as shown in the table below. The unit is easy to install, operate and does not require any adjustments.

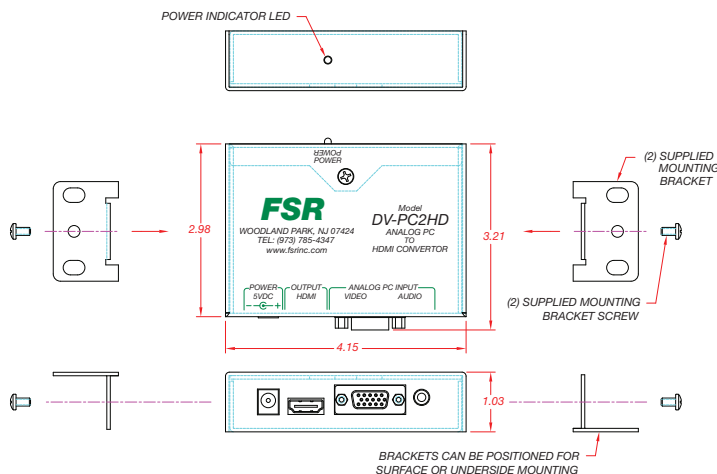

FEATURES

- Power LED
- 5VDC power input
- HDMI output
- HD-15 VGA input
- Stereo Mini Audio output
- 2' HDMI Cable included

Video Resolutions supported by the DV-PC2HD @ 60Hz
