HexArmor®

Standards

ANSI Z89.1 CE EN397	Type 1, Class C, LT
--------------------------------------	---------------------

Sizes

Helmet size: 6 ³/₈ – 8
 Helmet weight: 0.94 lbs (424.3g)

Comfortable, premium safety helmet

It's time to expect more from your head protection. Engineered to raise industry standards in comfort and fit, the Ceros® XP450A safety helmet brings you a technologically advanced short brim, vented safety helmet with removable four-point chin strap for workers who need secure Class C protection. Inside you'll find a completely pre-assembled six-point AirBridge® suspension system that provides wearers with a low-profile, balanced center of gravity fit and all-day comfort. Located on the front and back is our innovative adjustable HexVent® airflow system that allows for cool, front-to-back airflow. XP450A can accommodate a versatile lineup of both Click-and-Go® magnetic accessories and mechanical accessories that seamlessly integrate with the shell for a customizable safety helmet. The Ceros® XP450A – here to raise the bar in head protection.

Colors available:

Product features

- Premium HDPE material shell offers high level of protection and durability
- Short brim provides greater upward field of vision
- Slots for easy-to-integrate protection accessories, HexArmor® face shields and earmuffs
- Unique back-of-head coverage offers up to 17%* more protection
- Removable four-point chin strap
- Premium, moisture-resistant, removable sweatband that extends from ear-to-ear
- HexVent® system design allows air to enter the front of the helmet and exit through the back for a cool, comfortable fit
- SwiftLock® one-hand-turn wheel ratchet is padded for comfort and easy size adjustment
- Unique surface with both matte finish and gloss finish

AirBridge® suspension system

Pre-assembled into the safety helmet so you can unpack and start wearing immediately, saving you time and frustration

- 1 Standard six-point AirBridge® suspension system ensures optimal comfort and fit
- 2 Straps are ultrasonically welded, eliminating the discomfort and weakness typical of traditional stitching
- 3 Premium, moisture-resistant, removable sweatband that extends from ear-to-ear
- 4 SwiftLock® one-hand-turn wheel ratchet is padded for comfort and easy size adjustment

Click-and-Go® magnetic or mechanical accessories

- Balanced, nested accessories keep ergonomics at the forefront for less fatigue and strain
- Click-and-Go® magnetic or mechanical accessories are available for quick and convenient compatibility
- Hearing protection with attachment options and varying levels of protection to accommodate different noise levels
- Face shield with TruShield® scratch-resistant, anti-fog coating provides total protection, visual clarity and a closer fit

Protective devices do not provide unlimited protection. Some operations may require machine guards, face shields, special filter lenses, or other safety equipment. Safety helmets do not provide complete protection against hazards, and should only be used in conjunction with the prescribed safety equipment for the application as well as defined safety practices.

*The top four competitive North American helmets were compared in testing.
