Description

The LevelOne HVE-91 HDMI Extender series offers a ground-breaking solution for long range HDMI deployments, extending the range of Ultra/Full HD (4K/1080P) signal broadcasts up to 300 metres from the source. HDMI signals are distributed over Ethernet cables between the transmitters and receivers, providing a crystal-clear, high-definition signal without the expense of using optical fiber. The HVE-91 series features an in-built 4K Ultra HD video scaler, revolutionary technology which enables the user to find the optimal signal, regardless of the input specifications. The LevelOne HVE-9100 is a HDMI Extender Kit including a transmitter and a receiver for a long range HDMI deployment.
