

IPS-1201E 12-Outlet Intelligent Power Distribution

Product Images

Short Description

- Hourly-based current statistics for analysis and diagnosis
- Alarms for power failure by relay output
- Management: web browser, SNMP, SSH and Hyper Terminal
- Network Security: TLS and SSH
- Power on/off control on each port
- Access Control: Access Control List (ACL) / RADIUS
- Power protection: overvoltage / overcurrent

Description

IPS-1201 series is a Power Distribution Unit (PDU) which fitted with multiple outputs designed to distribute electric power, It offers a real-time remote load monitoring of connected equipment and a individual outlet power control for remote power recycling, manage power-on or power-off sequencing of equipment. IPS-1201 series provide reliable power distribution coupled with remote power and environmental monitoring via network interface to view power, temperature and humidity levels via Web browser, and receive SNMP-based and email alerts when conditions exceed defined thresholds. IPS-1201 series own the PIPS/POPS technology which delivers a more accurate level of data center power monitoring.

Additional Information

Color	Black
EAN	4015867205372
Model Number	IPS-1201E
Operating humidity	20% RH ~ 80% RH
Operating temperature	0°C ~ 50°C
Package Contents	IPS-1201E Power Cord Quick Installation Guide Resource CD (User Manual, QIG)
Dimensions (W x D x H)	431.6 x 200 x 42 mm
Product weight (kg)	3
Power input	200-240V AC (IPS-1201E),Max. Load: 16A IEC 320 C13: 10A Each unit NEMA 5-15R: 15A Each Unit
