- + Fixed 3.3MM lens
- + Advanced AI-Analytics
- + Supports H.265, H.264
- + Supports 1TB for recordings
- + WI-FI and Ethernet support, 2.4GHz
- + Deterrence Audio, Deterrence Pop-up
- + NDAA Compliant
- + IK7 Tempered Glass Protection

This 10.1-inch (10" class) LED Public View Display Security Monitor offers an additional layer of protection for retail employees looking to deter theft in high-traffic and self-checkout areas. Advertisements can also be added to the PVM in full screen, banner, and switching modes giving retail the ability to run ads. Deterrence audio can also be added to trigger warning sound clips.

1TB max for remote recording allows users to safely record and store video evidence and instances of unwanted activity, or illegal interactions.

Features include "recording in progress" displayed on screen with flashing LED light to put customers on alert to curb unwanted behavior. The monitor can capture detailed images at entry points that are often affected by varying lighting conditions, ensuring effective surveillance at any time of day.

The monitor employs a built-in camera with a 2MP fixed 3.3mm lens, CMOS Sensor to produce 1000TVL high-resolution images at 1920 x 1080 pixels.

SPECIFICATIONS

DISPLAY

Screen Size	10.1", 16:9 Aspect Ratio
Resolution	1280x800
Brightness	250cd/m2
