

# MVC400 Microsoft Teams Rooms System

## Microsoft Teams Rooms System for Small Rooms

Yealink MVC400 is specially designed for small conference rooms. The new generation MVC400 portfolio is the optimum choice for small meeting rooms with easy deployment, which includes new generation high-performance MINI-PC MCore Pro, new generation touch panel MTouch E2, and USB Video Bar UVC40. Yealink new generation MINI-PC MCore Pro combines aesthetics with practicality, has three HDMI ports, and comes with EDID, providing a flexible and reliable deployment solution for conference rooms. UVC40 together with 8 MEMS microphone arrays and 133 diagonal fields of view. UVC40 supports AI technologies such as face recognition, sound localization, and speaker tracking. UVC40 can provide users with a high-quality call experience in full-duplex mode.

- 

Easy Deployment
- 

Auto Framing
- 

Speaker Tracking
- 

Electric Lens Cap
- 

Wireless Content Sharing
- 

Device Management

### Key Features and Benefits

#### Native Microsoft Teams-tailored user interface, smooth conference experience

Native Microsoft Teams-tailored user interface offers a one-touch meeting join. Designed with the idea of multi-function all-in-one, the MTouch II touch panel allows you easily perform call control, camera control, content sharing and other functions. At the same time, MTouch II has a built-in Human Motion Sensor that the conference system can automatically wake up, and you can immediately start the conference.

#### Smart Video Conferencing with AI Technology

The Yealink UVC40 is equipped with AI technology, including Auto Framing and Speaker Tracking. With the 133° diagonal fields of view and auto framing, the UVC40 can recognize the number and position of attendees, framing everyone smoothly in the most appropriate view even in small spaces. The Speaker Tracking technology with a 20MP camera brings a vivid face-to-face meeting in a high-definition visual experience. In addition, with an electric lens cap, the UVC40 camera can automatically turn on and off with its detection function, securing privacy for your MVC400 conference rooms.

#### Precise Sound Localization, Full-duplex Experience

With Yealink Noise Proof Technology and dereverberation, the UVC40 with built-in 8 MEMS microphone arrays and speaker allows users to enjoy a full-duplex voice experience seamlessly without interruption and talk freely in a comfortable way.

#### Secure Conference with Electric Lens Cap

The camera’s electric lens cap automatically opens when the video conference starts and remains closed when not having video conferences, securing your conference privacy.

**Content sharing in real time**

The unique wireless content sharing solution provides participants maximum flexibility, and a one-click content sharing can be simply realized by plugging into the WPP30. A high resolution of 1080P/30 frames provides users with a better content sharing experience. Besides, wired content sharing is also available by connecting to the USB-C or HDMI port.

**Simple to deploy, Easy to use**

In the Yealink MVC series, the MCore Pro cable management solution integrates data transmission and power supply cables into one CAT5e cable, provides a straightforward solution to complicated cabling, and reduces the deployment time. For the MVC400 room system, easy deployment can be realized by connecting the MTouch E2 and the UVC40 to the MCore mini-PC.

**Manage your devices remotely**

This solution supports Yealink Device Management Platform/Cloud Service, and you can flawlessly manage, monitor, configure, update and diagnose all Yealink audio and video device peripherals on this platform remotely.

**Specifications**

Parameter	Description
Package Content	<ul style="list-style-type: none"> <li>· MCore Pro, Gen-3 Mini-PC</li> <li>· MTouch E2, Gen-3 touch panel</li> <li>· UVC40 All-in-One Video Bar</li> </ul>

\*This feature will be supported in future versions

### Meeting Room Deployment Scenarios

The deployment positions of microphones and UVC cameras maybe affect your meeting experience. You can refer to the diagram below to deploy or adjust your conference room.

**TIP**

- ① Above/Below Screen: Indicates that you can position the UVC40 either above or below the conference room's main screen. When placing it below, ensure that the camera is not obstructed.
- ② 133°: Indicates a horizontal viewing angle of the camera at 133°.
- ③ >1.5m: We suggest a minimum camera-to-person distance of 2.5 meters, which can be adjusted to suit your actual meeting room conditions.
- ④ 6m high quality (pickup range): This indicates the excellent pickup range of the UVC40.
- ⑤ PC and MTouch E2 are recommended deployment locations, but you can adjust them according to your specific requirements.

**MVC Kit**

Meeting Room Type	Model	Kit Contain
Small Meeting Room	MVC400-C4-000	MCore Pro MTouch E2 UVC40
